EDUCATION

Singidunum University

Bachelor's Degree in Computer Science

Belgrade, Serbia

Oct. 2025

EXPERIENCE

Software Engineer (React/Frontend)

Dec. 2022 – Jan. 2024

Munogu

- Developed the frontend for a GPT-powered interactive kiosk demoed at the Microsoft Technology Center in Milan. Built the hands-free voice interface using React and Electron, turning Figma designs into functional components and connecting them to backend APIs
- Built new frontend features into an existing React and Bootstrap admin dashboard used for checkout processing and internal operations
- Built an analytics frontend using Vite, React, Tailwind CSS, and Plotly.js to display Python-generated data visualizations for data scientists
- Maintained frontend architectures for luxury brands using Vue.js, Magento, and AWS S3. Handled issue tracking in Jira and ran deployments via Jenkins

PROJECTS

UnYellowGPT | *Next.js, React, TypeScript, Tailwind CSS, shadcn/ui, Neon DB*

- Built an AI web app for image color correction that reached over 5,000 active users. Handled authentication with Google OAuth and credit-based billing through Polar.sh

Flux Ghibsky Illustration | *LoRA, Hugging Face, Replicate*

- Fine-tuned a custom Flux LoRA model to generate Studio Ghibli-style art, reaching over 92,000 generations across Hugging Face and Replicate

Next Local AI Chat | *Next.js, Ollama, oMLX, Vercel AI SDK, Drizzle ORM, SQLite*

- Built a local ChatGPT alternative connecting to Ollama and oMLX. The application features standard text chat with SQLite history, an arena to prompt multiple models simultaneously and compare their responses side-by-side, and a real-time voice interface with screen sharing

Easy WebsiteGPT | *WXT, React, Vercel AI SDK, Tailwind CSS, shadcn/ui*

- Wrote a Chrome extension using WXT that lets users chat with AI about the current webpage. Used Readability and Turndown to convert DOM elements into markdown for the LLM context

GPT Image Captioner | *Next.js, React, Vercel AI SDK, OpenAI, Ollama*

- Built a batch image captioning tool for creating LoRA training datasets. Used the Vercel AI SDK to connect to OpenAI Vision and Ollama, and added a feature to export results as a ZIP file

CERTIFICATIONS

Front End Development Libraries | *freeCodeCamp*

2023

JavaScript Algorithms and Data Structures | *freeCodeCamp*

2023

Responsive Web Design | *freeCodeCamp*

2022

Crash Course on Python | *Google*

2022

Database Design and Programming with SQL | *Oracle*

2021

Modern JavaScript by Net Ninja | *Udemy*

2020

TECHNICAL SKILLS

Languages: JavaScript, TypeScript, Python, HTML/CSS, SQL

Frameworks & Libraries: React, Next.js, Node.js, Bun, Astro, Hono.js, WXT, Tailwind CSS, shadcn/ui, Motion, Socket.IO, Drizzle ORM, TanStack Query, Better Auth

Tools & Platforms: Git, Docker, Coolify, Cloudflare, AWS, Supabase, Neon, PostgreSQL, SQLite, Vercel, Netlify, Polar.sh, Jira, VS Code, Linux

AI & Development: OpenAI API, Vercel AI SDK, Ollama, oMLX, Groq, GitHub Copilot, Claude Code, OpenCode, Antigravity, Codex
